

Research Workshop

Corpus Linguistics: Researching English Studies in the Digital Era

ILP: 1.5 units (Intellectual and Entrepreneurship Development)

All are welcome

17 April
2023

4:30-6:00pm

Venue: LKK201

The research workshop introduces participants to the basics of corpus linguistics as a research method in applied linguistics in the digital era. Topics include approaches to corpus linguistics (corpus-based and corpus-driven or top-down and bottom-up approaches), corpus search and analytical methods, major types of corpora, statistics in corpus linguistics, and methodological evaluation and issues in corpus linguistics. Participants will have the opportunities to practise using available English corpora and corpus analysis tools and compiling their mini corpora for conducting small-scale digital humanities research projects in contemporary language studies.

Speaker: Mr. Hung Tsun Sing

Hung Tsun Sing is Part-time Lecturer in the Department of English Language and Literature at Hong Kong Shue Yan University and Part-time Teacher in the Division of English at HKU SPACE Community College. He obtained his MA in Linguistics and MPhil in English (Applied English Linguistics) from The Chinese University of Hong Kong and completed his Cambridge CELTA with International House London. His research interests include second language acquisition, second language writing, discourse analysis, cognitive linguistics, and corpus linguistics.
